

SOLIDWORKS Inspection Add-in API (.NET) — Reference (7/7): InspectionProjectDataClass- swiVendorsInspectionType_e

SOLIDWORKS API Documentation (converted from CHM)

InspectionProjectDataClass (Type)

InspectionProjectDataClass Class

[See Also](#) [Members](#)

[SolidWorks.Interop.swinspectionAddIn Namespace](#) : InspectionProjectDataClass Class

Object Model

InspectionProjectDataClass

.NET Syntax

Visual Basic (Declaration)

```
Public Class InspectionProjectDataClass
    Implements IInspectionProjectData, InspectionProjectData
```

Visual Basic (Usage)

```
Dim instance As InspectionProjectDataClass
```

C#

```
public class InspectionProjectDataClass : IInspectionProjectData, InspectionProjectData
```

C++/CLI

```
public ref class InspectionProjectDataClass : public
    IInspectionProjectData, InspectionProjectData
```

Interfaces

Interface	Description
IBalloonSettings	
ICharacteristicsData	
IBalloonSettings	Allows access to inspection balloon settings.
ICharacteristicsData	Allows access to characteristics data.
IInspectionAddInMgr	Allows access to the inspection add-in manager.
IInspectionProject	Allows exporting an inspection project.
IInspectionProjectData	Allows access to inspection project data.
IInspectionAddInMgr	
IInspectionProject	
IInspectionProjectData	

Enumerations

Enumeration	Description
swiBalloonSettingLayer_e	Ballooning layer types.
swiBalloonSettingsFit_e	Ballooning fit types.
swiBalloonSettingsOffsetTypes_e	Ballooning offset types.
swiBalloonSettingsShape_e	Ballooning shape types.
swiCharacteristicClassification_e	Classification type of the inspection project.
swiCharacteristicInfoExtraction_e	Types of extractions.
swiCharacteristicInfoSort_e	Types of ballooning display arrangements.
swiCharacteristicSubType_e	Characteristic sub-types.
swiErrorCode_e	Error codes.
swiSamplingLevel_e	Sampling levels.
swiSamplingType_e	Sampling types.
swiVendorsInspectionType_e	Vendor inspection types.
